41st KMB Video Journal Conference

May 12, 13 and 14, 2008

BROADBAND AND THE STATES - CLOSING THE GAP

The 41st Conference has been designed to assist legislators, government officials and industry professionals

to explore and understand current and future Broadband policies, applications, and developments that will affect consumers and business interests. Conferees will present, discuss and exchange views.

AGENDA TOPICS

- Broadband and building community networks.
- Will Internet Neutrality be an even bigger issue?
- What role will cable be allowed to play?
- How current and future FCC policies impact broadband in America.
- Questions and issues in broadband mapping.
- Tele-Health Networks
- Building Information Superhighways; is there a master plan? Should there be one?
- The implications of dedicated networks versus common usage networks.
- The wireless world, the spectrum and public safety.
- The implications of Universal Service funding for broadband networks.

These and other issues will be discussed and debated at this 41st KMB Conference.

The Summary of the conference will be printed and distributed via the Internet.
